

RPG ALOE

THE PERFECTION OF ALOE VERA PROCESSING™

Today we see so many people needlessly suffering from cognitive, immune, GI tract and gut microbiome health issues. Experts agree that when we feed the body what it needs it can heal itself.

As Hippocrates said “Let thy food be thy medicine.”

At Real People Giving we have teamed up with the world’s greatest minds to create organic plant- based products that naturally optimize the body. These products work with the body’s systems to support the normal healthy bodily functions.

Research Results - Experts Agree

One of these great minds is [Dr. Santiago Rodriguez](#). Dr. Rodriguez is renowned as the foremost expert in the world on aloe vera processing. He is credited with revolutionizing commercial aloe vera farming and processing.

His unique secret process leaves the best of nature intact while improving upon the bioavailability and immunomodulatory functions of aloe.

Everybody knows that aloe vera is good for you and humans have been using this incredible “Miracle Plant” for 1000’s of years.

[Experts agree](#) and [research supports](#) that the Acemannan (a.k.a. poly acetyl mannose) the active ingredient in RPG Aloe is one of the most effective molecules that one could ever consume.

As a matter of fact when a woman becomes pregnant she creates a molecule called Mannose that optimizes the baby’s normal immune, gut health and stem cell support. Once the baby is born the mother will also pass this to the baby through her breast milk.

As we age, our bodies still have the receptors in our gut that are looking for Mannose. Studies have shown that when we consume the Acemannan in RPG Aloe it fills those Mannose receptors that support our gut health, modulates our immune system, has anti-inflammatory, anti-bacterial and anti-viral functions and increases stem cell production 300% to 400% through the body.

RPG Aloe is Organic

RPG Aloe is created with the highest quality Acemannan. It has the most bioavailability; the most immunomodulatory response and it is at the optimal molecular weight to get the highest benefit from Aloe Vera L. available today.

RPG Aloe is organic aloe vera inner leaf freeze dried powder with the following:

- HIGHEST Total Acemannan – On Average 18+%
- HIGHEST Immunomodulatory Acemannan < 400 KDa
- HIGHEST Bioavailable Acemannan < 50 KDa
- HIGHEST Polysaccharide Content – On Average 20%
- FULL SPECTRUM of Molecular Weight Polysaccharides

The latest research shows that Polysaccharides between 400 and 5 KDa exhibit the most potent immunomodulatory activity. Eighty seven percent of RPG Aloe's Acemannan is in this range compared to ten to twenty percent of most other Aloe products.*

RPG Aloe's top benefits include:

- **Anti-inflammatory**
- **Anti-bacterial and Anti-viral functions**
- **Increase in stem cell production 300% to 400%**
- **Supports healthy gut microbiome**
- **Modulates the immune system**
- Optimizes endocrine system
- Anti-aging properties
- Aids in the absorption of vital nutrients and minerals such as vitamin C and E by 300%
- Improves metabolism
- Helps to modulate the glycemic Index
- Boost nitric oxide production by 50%

RPG Aloe lets you take charge of your own health to live the life that you've always wanted. So if you are looking for the best way to optimize your health naturally then RPG Aloe is exactly what you've been looking for. Come and join the thousands who have optimized their health with RPG Aloe.
